10 digit telephone numbers for "LOCAL AGENCY " 911 call centers
Confirm through agency business number due to possible changes / errors.

Cell phone 911 calls typically result in a connection to the California Highway Patrol (CHP). If you have an emergency on a California Highway or Freeway, cell phone 911 may be appropriate. Note your location before you make the call.

The CHP is a **"third party"** in your effort to contact **Local** 911 dispatchers. **Delays may occur.** You may wait 12-15 minutes until CHP can call you back or relay your call information to Local Dispatchers.

For the quickest connection to **Local** 911 dispatchers, call them directly on their 10 digit access telephone number with your cell phone or use your **"Wireless Carrier's" 411 service** to have the operator assist you with a connection to the **Local** 911 dispatcher. All "land line" telephones will connect you to the **Local** 911 dispatcher.
